

Please add new Claim 10:

10. (New) An optical stack of laminated removable lenses for affixing to a viewing surface comprising:

a plurality of superposed removable lenses adhesively affixed to one another;

each said removable lens being held to each successive lens with a clear uninterrupted adhesive layer interposed between each said removable lens;

each said lens having a removable tab portion on at least one end which does not have any adhesive layer on either side of said tab portion for allowing a user to quickly grasp said removable tab portion for removing the top lens and exposing a clean lens directly underneath said removed top lens.

REMARKS

This is a continuation patent application that is being filed before issuance of the parent case (United States Application Serial No. 09/449,318). In this continuation application, Applicant hereby cancels Claims 1 through 9 and adds new Claim 10.

Attached hereto is a marked up version of the changes made to the specification and claims. The attached page is captioned "VERSION WITH MARKINGS TO SHOW CHANGES MADE".

If any additional fee is required, please charge Deposit Account Number 19-4330.

Respectfully submitted,

Date: 1/14/02
